WORKERS' COMPENSATION BOARD HISTORICAL HIGHLIGHTS AND STATISTICS	. 45

Kenneth C. Pals, Chairman, January 18, 1984 -

The appointment of Mr. Pals as Chairman and Chief Executive Officer became effective January 18, 1984. Mr. Pals brings to the Board extensive financial and administrative experience from the banking and petroleum industries having served in managerial and executive positions with the Bank of Montreal and Petro-Canada.

Dr. A.E. (Bert) Hohol, Vice-Chairman

Dr. Hohol was appointed Vice-Chairman of the Board on March 1, 1982. Prior to this, he served as a Board Member from May 1, 1979. Formerly an educator and administrator in the Alberta Public School system, Dr. Hohol also served as an MLA and held the portfolios of Manpower and Labour, and Advanced Education and Manpower in the Alberta Government.

Peter Kolba, Member

Appointed to the Board in 1974, Mr. Kolba brings to his position a deep understanding of the problems of disabled workers. Prior to his appointment he was Secretary-Treasurer of the Alberta Federation of Labour, as well as the full-time Alberta representative of the Canadian Food and Allied Workers.

Morris E. Bahrv, Member

The appointment of Mr. Bahry to the Board became effective March 1, 1982. Mr. Bahry brings to his position a background of wide experience in business and light industry. He is a member of the Edmonton Chamber of Commerce, and a past member of the Red Deer Chamber of Commerce and the Vancouver Board of Trade.

Roy H. Jamha, Chairman, January 1, 1973 - December 31, 1983

Formerly a Labour Relations Consultant and member of the Alberta Board of Industrial Relations, Mr. Jamha assumed the chairmanship of the Board on January 1, 1973. He is a past president of the Alberta Federation of Labour, and representative of the Oil, Chemical and Atomic Workers Union. Effective January I, 1984, Mr. Jamha relinquished the position of Chairman and was appointed to serve as a Board Member.

To the Lieutenant Governor in Council, Province of Alberta, Edmonton, Alberta.

In accordance with Section 87, subsection (2) of The Workers' Compensation Act, the Workers' Compensation Board is pleased to present its Annual Report for the year ended December 31, 1983.

## INTRODUCTION

During 1983, industrial activity slowed down as a result of the decline in the economy. Both the number of employers registered and the number of lost time claims reported decreased. However, the number of appeals and re-opened claims increased as did the number of patients treated at the Rehabilitation Centre and the service requests received by the Vocational Rehabilitation Department. Particular attention was paid to reduction of the operating reserve deficit and control of the increase in administrative expenses. Despite reduced personnel count and increased workload every effort was made to maintain a high quality of service to our clients.

## **CLAIMS**

For the Claims Department, 1983 was a year in which improved accuracy and consistency in decision making was stressed with the refinement of internal quality control measures. Much greater emphasis was placed on a multi-disciplinary approach to claims handling involving the active and combined services of the Claims, Vocational Rehabilitation, Medical and Psychology Departments.

There was implementation of a system which saw pension payments deposited directly to workers' accounts by means of an Electronic Bank Deposit service. This system is utilized by almost half (approximately 7,000) of our pensioners with an anticipated increased interest in the future.

While the number of lost time claims opened with compensation benefits paid in 1983 declined by 11.2%, the volume of work increased by 12% primarily because of the increasing complexity of cases, a greater number of appeals, and more attempts to re-open old claims.

Development of Adjudication Policy and Procedure Manuals proceeded on schedule. Accidents reported for the 10-year period 1974 – 1983, inclusive, were as follows:

Year	Accidents Reported	% Change	Total Fatals Accepted	% Change
1974	90,707	+ 13.5	141	+ 15.5
1975	92,412	+ 2.0	124	- 12.0
1976	105,836	+ 14.5	125	+ 1.0
1977	109,131	+ 3.0	141	+ 13.0
1978	122,222	+ 12.0	138	- 2.0
1979	142,219	+16.0	156	+ 13.0
1980	150,703	+ 6.0	169	+ 8.0
1981	156,099	+ 3.5	161	- 5.0
1982	74,349	-52.0	169	+ 5.0
1983	57,246	-23.0	95	-44.0

NOTE: 1982 was the first year when there was no requirement to report 'No Lost Time' accidents to the Workers' Compensation Board. Accidents reported in 1982 include a carry forward of 'No Lost Time' accidents occurring in the latter part of 1981.

The number of claims opened with compensation benefits being paid in 1982 was 43,778 and in 1983 was 38,868 – down only 11.2%.

## Disability Evaluation

The Disability Evaluation Committee comprises representatives of the Claims, Medical and Vocational Rehabilitation Departments. Its function is to assist in the determination of appropriate benefits by considering additional factors beyond the medically assessed impairment of workers who are left with permanent disability following compensable injury.

1983 was an active year for the Disability Evaluation Committee. Despite the decline in the number of lost time accidents reported, the number of cases considered increased to 1,310 from 1,147 in 1982. This represented an increase of 14.2% over the previous year.

## Claims Advisor Service

The Claims Advisor Service provides an opportunity for workers and employers alike to discuss difficulties they may have concerning a claim. Assistance is given in preparing a case for appeal and personal representation is available.

Visits are made to communities throughout the Province enabling on-the-spot discussion to take place.

The number of out-of-town trips and the cases handled by the Claims Advisors increased during 1983 as shown here.

## Number of Out-of-Town Trips

1982	1983
71	91

## **Number of Cases Handled**

1982	1983
595	691

Efforts by the Regional Office Staff to handle the more routine enquiries allowed the Claims Advisors to spend more time on complex issues and in representing workers appealing their cases to the Claims Services Review Committee and to the Board itself.

## **CLAIMS SERVICES REVIEW COMMITTEE**

The Claims Services Review Committee provides an internal review of decisions made in respect of any claim for compensation. Anyone, including employers, workers or dependents, whose interest is affected by a decision of the Claims or Vocational Rehabilitation Departments concerning a claim dealt with under the Workers' Compensation Act may appeal to the Claims Services Review Committee.

The number of appeals considered in 1983 increased to 1,451 as compared to 1,045 in 1982, an increase of 39%. Decisions reached during the year totalled 1,294, an increase of 22% over the previous year. The number of decisions which resulted in the disposition of the claim being changed in favour of the claimant was 282 or 22%.

During the year, 905 hearings were held throughout the province, an increase of 18% over the previous year. As of December 31, 1983, 328 appeals were still under consideration as compared to 171 as of December 31, 1982.

## New Appeals Received During Year

1981	1982	1983
650	1,045	1,451

#### **Decisions Reached During Year**

1981	1982	1983
584	1,060	1,294

### **Appeals Outstanding at December 31**

1981	1982	1983
186	171	328

## APPEALS TO THE BOARD

Four hundred and forty-seven separate situations were reviewed and finalized by the Board during the year.

To properly assess the various situations, 117 hearings were held with various parties such as claimants, employers, etc. This represents a 46% increase over the 80 hearings in 1982.

Of the 447 appeals, 281 of these were appeals of Claims with 30% of the decisions being altered by the Board; 23 were Assessment appeals of which 21% resulted in altered decisions. The balance of the reviews dealt with pension advances, lump sum requests and Vocational Rehabilitation Department applications.

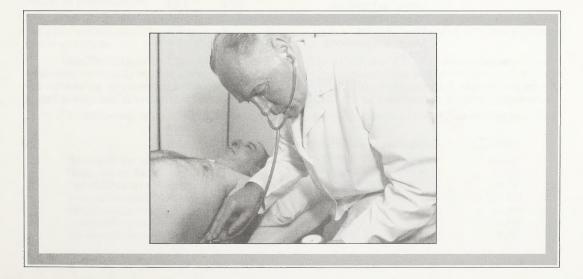

## **MEDICAL**

Reorganization of the Medical Department continued with special emphasis on reorganization of the Medical Support Services and increasing the quality of the medical opinions offered to other departments of the Board. The overall goals were better cost efficiencies and quality of advisory services.

Medical Examinations	1982	1983
Edmonton Office	5,418	4,606
Calgary Office	2,512	2,774
Total Medical Boards	1982	1983
Edmonton and Calgary	169	158

Over 300 claim files were studied daily by the Medical Advisors in Central Office.

Note: Medical examinations are conducted by Workers' Compensation medical staff. Medical Boards are conducted by outside consultants whenever the need arises. Of the total number of medical boards conducted in 1983, 29 claims were evaluated by independent Cardiology Boards; 89 by independent Chest Boards.

## REHABILITATION CENTRE

The Director of the Centre, Mr. W. Jarman, retired during the year and Mr. R.E. Leenders was appointed as his replacement as of June 1, 1983. During the year, proposals for a major change in Centre operation philosophy were developed, and approved by the Board in November 1983.

The major components of the proposed changes are:

1. A change in emphasis from disability to ability in the programming at the Centre.

2. Establishing a much closer functional relationship with the other areas of the Claims Services Division – the Claims Department, the Vocational Rehabilitation Department and the Medical Department.

 Achievement of these objectives has consisted of the development of a multi-disciplinary Admission/Discharge team with representation from Claims, Vocational Rehabilitation, Medicine and Psychology.

- The division of treatment and vocational assessment.

 A major emphasis on conditioning and fitness methods in both the treatment aspects and the assessment areas.

 The developing of orientation and educational sessions for workers to achieve better understanding of the function of the W.C.B. as a whole and the aims and objectives of the Centre in particular.

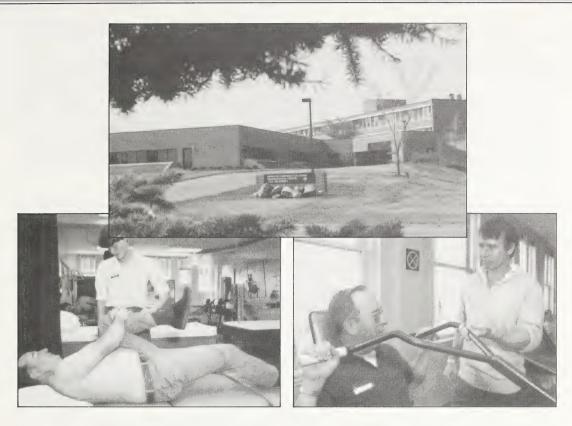

A total of 2,668 patients were admitted to the Rehabilitation Centre during 1983, including 581 readmissions. This figure shows an increase from previous years. This increase is felt to be a reflection of the economic climate which caused many claimants to seek readmission to the Centre. The daily attendance average for the year was 327, compared to 309 for 1982, and 243 for 1981. The average length of stay was reduced from a 1982 high of 42.4 days to 34.0 days in 1983, a decrease of 20%. This reduction can be attributed to greater efficiency in treatment and evaluation methods. The total number of patient days increased to 75,745 days as compared to 71,656 in 1982 and 55,721 days in 1981.

## Injury Treated by Part of Body

	Percentage	
	1982	1983
Lower backs	41.2	48.0
Upper backs	10.5	7.6
Lower extremities	20.7	17.2
Upper extremities	23.0	19.1
Head injuries	1.9	2.2
Major amputations	0.6	0.4
Other	2.1	5.5

## Geographical Distribution of Source of Patients

	Percentage	
	1982	1983
Edmonton and district	55.4	59.0
Calgary and district	16.2	17.0
Other locations in Alberta	26.7	22.0
Out-of-province	1.8	2.0

## **VOCATIONAL REHABILITATION**

The primary objective of the Vocational Rehabilitation Department is to provide workers with whatever vocational rehabilitation services are considered necessary to assist in their successful return to employment.

The Vocational Rehabilitation Department extended services to 15,556 injured workers during the year. Vocational Rehabilitation service was completed in 12,373 cases, leaving 3,183 cases active at the year end.

Two Rehabilitation Counsellors, one each in Edmonton and Calgary, were relieved of their caseloads and assigned the positions of Employment Counsellors. This was an initial move to meet the increasing demand for employment resulting from the high unemployment rates being experienced at the time. A system of posting employment opportunities has been developed in both areas.

The following table highlights the significant aspects of the Department's work during 1983:

	1982	1983	% Change
Requests for service	12,213	15,556	+ 27.37
Referred to Rehabilitation Counsellor	6,640	6,741	+ 1.52
Rehabilitation services completed	9,227	12,373	+ 34.10
Evaluation and training programs	433	1,034	+ 138.80
Employer contacts	13,638	21,379	+ 56.76
Counselling of spouses	64	81	+ 26.56
Active caseload – December 31	2,986	3,183	+ 6.60

In terms of financial support, the Vocational Rehabilitation Department expended nearly \$4.2 million, double the expenditure of the previous year.

The economic downturn had a dramatic affect on the availability of employment and the competition for available positions. This was the major factor contributing to the increased costs in 1983.

The increases in the costs of retraining programs varied from 34% for academic retraining programs to 379% for training-on-the-job programs.

The costs of all programs varied from a decrease of 28% for academic programs to an increase of 17% for work assessment programs. A significant factor in the overall total expenditure was again the increase in the number of workers sponsored in such programs as work assessment, training on the job, and academic retraining programs.

The main areas of expenditure during 1983 were:

Re-employment assistance Training allowances Training-on-the-job	\$	1,646,000 722,000 603,000
Paraplegics and amputees:  -residential modifications	\$ 142,000	
-residential lifts	41,000	
-vehicle modifications	58,000	241,000
Rehabilitation grants		314,000
Tuition fees, books and supplies		183,000
Interim program allowances		152,000
Work assessment		191,000
Subsistence allowances		43,000

## **ASSESSMENT**

As of December 31, 1983, there was a small decline in the number of employers registered with the Board as compared to the previous year. There was an overall small reduction in the number of staff employed in the Department. The following table indicates the number of employers registered with the Board during the 10-year period 1974 to 1983 inclusive:

Year	Number of Employers Registered	Number of Class Accounts	Assessable Payroll (000's)
1974	29,827	32,188	\$ 3,338,806
1975	32,697	35,284	4,410,951
1976	38,641	41,215	5,528,638
1977	44,711	47,531	6,531,111
1978	50,716	54,050	7,527,979
1979	53,578	57,148	8,822,631
1980	57,646	61,470	10,394,183
1981	55,006	59,076	13,034,082
1982	53,891	58,201	15,832,600
1983	53,370	57,743	15,131,992

In 1983, the level of service provided to employers and the productivity of the staff of the Assessment Department was improved by the implementation of on-line computer systems to generate clearances and certificates to monitor the location of assessment files and work flows within the Department. Considerable progress was made towards the development of a new assessment computer system. Certain phases of this system are scheduled for implementation during the latter part of 1984.

## ASSESSMENT REVIEW COMMITTEE

Previously, the Director of Assessment functioned as Chairman of the Assessment Review Committee, however, effective November 1, 1983, the Assessment Review Committee was established as an independent function within the Board's organization.

The Committee reviewed 218 appeals from employers during 1983 which related to assessment matters and cost relief under Section 89(2) of the Act. Of the 218 appeals, 159 dealt with assessment matters and 61 or 38% were altered in favour of the employer.

Forty-one appeals were related to cost relief and 25 or 61% of these were decided in the employer's favour.

## **ADMINISTRATIVE AND GENERAL EXPENSES**

Year	Amount (\$ millions)	% Change from previous year
1979	14.0	17.6
1980	17.3	23.6
1981	22.3	28.9
1982	28.1	26.0
1983	30.2	7.5

Note: The Administrative and General expenses outlined here do not include Occupational Health and Safety payment, and medical, investigation, and other costs not charged directly to the classes.

The above data reflects the progression during years of significant economic growth and also illustrates our recognition of the need for restraint in a period of economic downturn. The trend is not immediate due to spill-over of substantial costs in 1982, and to a lesser degree, into 1983.

The Board is very cognizant of the need to monitor and control costs and to this end, costs at all levels within the organization are carefully scrutinized. The efficiency of operations has been a primary concern to the Board and in this regard, many systems have been or are being enhanced involving an initial cost but geared to achieve increased savings in the future.

## **GENERAL**

In keeping with the Board's commitment to fiscal restraint, close examination was made of all positions which came vacant and by year's end the staff complement was reduced by 3%. This reduction was a result of an effort to minimize operating costs while maximizing efficiency which was also in keeping with the directives of the Provincial Government. The growth and subsequent reduction of staff complement over the past five years is shown in the following table.

11

The present Central Office continued to provide suitable accommodation for the various activities carried out there and no major renovations were required during 1983. The Rehabilitation Centre had some minor improvements carried out during 1983.

Modifications were made to the Grande Prairie Office to improve working conditions and space utilization and the Lethbridge Office was moved to a new rental location early in the year.

Through 1983, work proceeded in conjunction with the various consultants on the preparation of the full design working drawings for the Central Office and Rehabilitation facility in accordance with the authority provided by Executive Council in late 1982. Nevertheless, at year's end, the Board was examining the organization's present and future needs in the context of the present economic climate with a view to deferring the start of construction indefinitely.

Installation was started of word processing equipment capable of being linked to the main computer and aimed at increasing the overall efficiency in office systems. A total of 15 units were installed in 1983, with a further 11 scheduled for 1984.

A major change in the information storage and retrieval systems was introduced late in 1983 with the installation of a Database Management System scheduled to be fully operational early in 1984.

The Third Party Action project commenced in 1982, continued to prove successful during 1983 and resulted in total recoveries in excess of \$650,000, of which some \$241,000 was paid out to workers over and above normal compensation benefits. Under this project the services of Board lawyers, on a fee-for-service basis, are provided, on request, to workers with legitimate third party action claims.

Speaking engagements continued to be organized throughout the province to explain the functions, policies and practices of the Workers' Compensation Board and handle questions. During 1983, over 140 of these meetings were held. The newsletter to employers continued to be circulated.

All levels of staff benefited from both internal staff development programs and specialized courses offered by the Provincial Government and from the Board's Study Assistance Program.

The Board would like to take this opportunity to acknowledge and express appreciation to the staff for the dedication shown to the work of the Workers' Compensation Board of Alberta, without which effective administration of the Workers' Compensation Act would not have been possible.

Respectfully submitted,

Kenneth C. Pals Chairman and Chief Executive Officer

INTRODUCTION
AUDITOR'S REPORT
AUDITED FINANCIAL STATEMENTS  1. Balance Sheet
ACTUARIAL OPINION AND AND AND AND AND AND AND AND AND AN
UNAUDITED SCHEDULES
1. Investment Portfolio

## INTRODUCTION

The following pages contain the audited Financial Statements and Notes of the Board. These are followed by: an actuarial opinion on the Board's liabilities, which is included for the first time; unaudited schedules which summarize the Board's investment portfolio; and unaudited schedules which present the estimated financial position of each rateable class.

#### 1983 Results:

There was a reduction of approximately \$20 million in the deficit position of the Operating Reserve which was primarily the result of a \$55 million fund release from the Unfinalled Claims Reserve, due to a downward adjustment of previously estimated requirements for prior years' claims. This fund release was substantially offset by a continued loss on current year operations caused by a decline in assessment revenue, and the resumption of responsibility for Medical Aid costs during the year.

The performance on current year's operations remains of concern to the Board, and it continues to explore ways to correct the situation without resorting to higher assessment rates, although in certain instances it would appear that this will be unavoidable.

#### Disclosure:

As an extension to the legislatively required five year review of the Pension Fund, the Board has also valued all of its other claim liabilities. The results, as described below, have been confirmed by an independent actuary whose opinion is expressed following the Notes to the Financial Statements.

Although the Pension Fund is now considered to be in a surplus position of \$73 million, partially resulting from the lack of recent cost-of-living adjustments, the Unfinalled Claims Reserve is in a minor shortfall position of \$33 million, while the Mutual Reserves are in a significant underfunded position of \$156 million on a full-funding basis. With regard to the magnitude of the latter figure, this results from the Board's accounting practice in the recent past which has been essentially to current cost charges to these Reserves.

The combined result, in absolute terms, is an unfunded position in the Reserves and Pension Fund of \$116 million and, including the deficiency in the Operating Reserve, a total unfunded liability of \$173 million calculated on the basis of discounting future cash flow estimates at a net real rate of interest of approximately 2 1/3%. The total figure of \$173 million, when viewed in relative terms, indicates the Board is 84% funded as of December 31, 1983 or, alternatively, that the unfunded liability represents approximately six months' gross assessment income.

A decision on how to address the unfunded liability will be made in 1984; however, it should be clearly understood that this is an estimated liability which will only become known with certainty over a period extending well into the next century. Thus, there is ample latitude, in both time and manner, as to how it is to be recovered.

The unfunded liability position is not stated in the following Balance Sheet and Statements as comparable data was not readily available for 1982. It is disclosed, however, in the Notes and in the independent actuary's opinion, and it is planned to include these liabilities in the Financial Statements as at December 31, 1984.

#### Administrative and General Expenses:

These expenses increased by 7.5% over 1982 and reflect a significant reduction in growth from the 26% increase in 1982. This results in part from the level of economic activity in the Province, and in part to the efforts of the Board to monitor and control costs at all levels within the organization, yet at the same time maintain an effective and efficient level of service. These cost reduction efforts continue.

#### Assets and Investment Performance:

The Board passed a significant milestone during 1983 with assets reaching a total in excess of \$1 billion. Of these assets, \$955 million is invested in marketable securities, and the return on these assets during the year was 12.01% as compared to 12.25% in 1982.

Portfolio diversification into equities continued during the year, and the term to maturity, of the fixed income component, was further reduced with the objective of making the portfolio more responsive to inflation.

Current objectives and strategy are again being reviewed and recommendations will be considered by the Board during 1984.

### A Look To The Future:

Finally, and with a look to the future, the Board is in the process of completing a major review of all of its financial systems, policies and practices, particularly including the rate setting and experience rating systems. This review will be completed during 1984 and, where appropriate, will subsequently be discussed with industry prior to any final decisions being reached.

#### ALBERTA LEGISLATURE

#### OFFICE OF THE AUDITOR GENERAL

## **AUDITOR'S REPORT**

To the Members of The Workers' Compensation Board

I have examined the balance sheet of The Workers' Compensation Board as at December 31, 1983 and the related statements (numbers 2 to 7 inclusive) for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As described in Note 12 to the financial statements, the Health Care Statutes Amendment Act, 1983, assented to June 6, 1983 transferred back to the Board, effective January 1, 1982, responsibility for the cost of health services provided to injured workers coming under the Workers' Compensation Act. An arrangement between the Board and the Minister of Hospitals and Medical Care in accordance with section 82.1 of the Workers' Compensation Act has not as yet been finalized to retroactively authorize payments totalling \$48,013,000 by the Board during the year ended December 31, 1983.

In my opinion, except for any adjustment that may be required upon finalization of an arrangement between the Board and the Minister of Hospitals and Medical Care as described in the preceding paragraph, these financial statements present fairly the financial position of the Board as at December 31, 1983 and the results of its operations for the year then ended in accordance with the disclosed basis of accounting, considered appropriate in the circumstances, as described in Note 2 to the financial statements applied, except for the change in method of recording capital gains and losses on equities and the recording of an allowance for doubtful assessments receivable as explained in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

C.A. Auditor General

Edmonton, Alberta May 2, 1984

## THE WORKERS' COMPENSATION BOARD NOTES TO THE FINANCIAL STATEMENTS

**DECEMBER 31, 1983** 

#### 1 AUTHORITY

The Workers' Compensation Board operates under the authority of the Workers' Compensation Act, Chapter W-16, Statutes of Alberta, 1981, as amended.

#### 2 SIGNIFICANT ACCOUNTING POLICIES

#### General:

These financial statements have been prepared in accordance with generally accepted accounting principles except for the following:

- A gain or loss on sale of a bond is deferred and amortized to the appropriate maturity or call date of the disposed bond.
- (ii) A gain or loss on sale of an equity is deferred and amortized to investment income at 7% per annum, applied to the unamortized balance. Unrealized gains and losses are also amortized to investment income at 7% per annum, applied to the unamortized balance.
- (iii) Assessment revenue is reduced for accounts written off as uncollectible, or increased for collection of previously written off accounts.

#### Assessments Receivable:

Assessments receivable and assessment revenue have been increased by an amount that is the net adjustment estimated to be required when all employers' payroll returns have been received and payroll audits completed in respect to 1983.

### Depreciation:

Depreciation is recorded as follows:

Central office building
Regional office buildings and
Rehabilitation Centre
Equipment
Automobiles

21/2% diminishing balance

2½% straight line 15% diminishing balance 25% straight line (first year) 20% straight line (thereafter)

#### Translation of Foreign Currency:

Assets and liabilities in foreign currency have been translated into Canadian dollars at the exchange rate prevailing at the balance sheet date.

### Reserve for Unfinalled Claims:

The reserve for unfinalled claims (which was previously entitled "Estimated Liability for Unfinalled Claims") is the amount provided to meet future claims costs in respect of 1983 and prior years' accidents with the exception of:

- a. costs chargeable to the mutual reserves shown on Statement 5,
- b. costs in respect of workers of self-insurers, and
- c. costs payable to the Accident Fund out of the General Revenue Fund of the Province of Alberta under Sections 52 and 71 of the Act.

The reserve is an opinion of officials of the Board, based upon the experience of recent years and is reviewed and adjusted annually.

#### 3 CHANGES IN ACCOUNTING POLICIES

Capital Gains and Losses on Equities:

Prior to 1983, capital gains and losses arising on sale of equities were included in investment income in the year of sale.

In 1983, the Board changed its method of accounting to include annually in investment income, 7% of unamortized realized and unrealized gains and losses on equities. The effect of this change in accounting policy is to increase investment income in 1983 by \$1,100,000. This amount is calculated as follows (in thousands of dollars):

Amortization of realized gains and losses, net	\$ 64
Amortization of unrealized gains and losses, net	1,792
	1,856

Deduct: Amount which would have been reported under the previous policy 756
\$ 1,100

The 1982 comparative figures have not been restated to reflect application of the new policy. However, had the policy existed in 1982, investment income would have been increased by \$322,000 and the operating reserve (deficit) at January 1, 1982 would have been increased by \$43,000.

Provision for Doubtful Assessments Receivable:

Prior to December 31, 1983, the practice of the Board was to make no provision for doubtful assessments receivable but to reduce assessment revenue when accounts were written off as uncollectible, and increase assessment revenue when previously written off accounts were recovered. During 1983, the net bad debt write off was \$1,479,000 (1982 – \$1,086,000).

As at December 31, 1983, the Board adopted the policy of recording an allowance for doubtful assessments receivable and recording the provision as a reduction of assessment revenue for the year. The amount of this allowance as at December 31, 1983 was \$3,600,000.

The 1982 comparative figures have not been restated. However, had the policy existed in 1982, assessments receivable and assessment revenue would have been reduced by \$3,100,000 and the 1983 provision would have been \$500,000.

Assessments receivable in the balance sheet are disclosed net of the allowance for doubtful assessments receivable.

### 4 DEPOSITS IN TRUST, TERM DEPOSITS AND INVESTMENTS

Deposits in trust consist of deposits in the Consolidated Cash Investment Trust Fund of the Province of Alberta.

Term deposits are recorded at amortized cost and consist of certificates of deposit, guaranteed investment certificates, treasury bills and promissory notes, which mature within six years of the date of the balance sheet.

Investments are recorded at amortized cost with the exception of equities which are at cost.

The approximate market value of the investments as at December 31, 1983 was \$761,829,000 (1982 - \$576,533,000).

Reserve for loss on realization of investments as at December 31, 1983 amounted to \$15,579,000 and is to provide for possible future losses. Provision during the year consisted of an appropriation of \$3,500,000 (1982 - \$2,147,000).

#### 5 ASSESSMENTS RECEIVABLE

In accordance with the accounting policy described in Note 2, assessments receivable and assessment revenue have been increased by \$7,424,000 (1982 - \$18,920,000).

### 6 LAND, BUILDINGS AND EQUIPMENT

Land, buildings and equipment are as follows (in thousands of dollars):

		1983		 1982
	Cost	Accumula Depreciat	Book alue	t Book /alue
Land Buildings	\$ 60 9,40	2 3,0	604 6,345	\$ 604 6,481
Equipment	2,92 \$ 12,92		 1,396 8,345	\$ 1,300 8,385

On August 19, 1982 the Board entered into an Option Agreement to acquire land from the Canadian National Railway Company, subject to certain conditions, for the price of \$10,584,000. This acquisition is for the purpose of constructing an administration and rehabilitation centre facility. A payment of \$3,000,000 has been included in deferred charges and other assets in the balance sheet. Conditions have now been met which allows the Board until July 12, 1986 to pay the balance of the purchase price.

## 7 DEFERRED CHARGES AND OTHER ASSETS

Deferred charges and other assets are as follows (in thousands of dollars):

1983	1982
\$ 19,478	\$ 24,580
1,100	_
3,000	3,000
2,799	692
180	
\$ 26,557	\$ 28,272
	\$ 19,478 1,100 3,000 2,799 180

#### 8 RESERVE FOR UNFINALLED CLAIMS

The reserve for unfinalled claims was calculated by the Board and reviewed by an independent actuary as at December 31, 1983. Based on this review, the reserve was confirmed to be \$33,287,000 less than the calculated present value of the liability for unfinalled claims.

## 9 PENSION LIABILITY - FUNDED

As required by legislation, the pension liability – funded was reviewed by an independent actuary as at December 31, 1983. Based on this review, the pension fund was considered to be \$73,035,000 in excess of the calculated present value of the liability for pensions.

### 10 MUTUAL RESERVES

The mutual reserves (which was previously entitled "Reserves Provided for Specific Claims Costs") were calculated by the Board and reviewed by an independent actuary as at December 31, 1983. Based on this review, the reserves were confirmed to be \$156,611,000 less than the calculated present value of the liabilities for mutual reserves.

#### 11 INVESTMENT INCOME ALLOCATION

The investment income is allocated as follows (in thousands of dollars):

	1983	1982
Reserve for unfinalled claims	\$ 26,619	\$ 15,608
Pension liability – funded	65,295	53,101
Mutual reserves	61	24
	\$ 91,975	\$ 68,733

#### 12 MEDICAL AID – PAYMENTS TO THE ALBERTA HEALTH CARE INSURANCE FUND

As stated in the 1982 financial statements, the Board received invoices from the Alberta Health Care Insurance Fund during 1982 totalling \$20,388,000.

The Health Care Statutes Amendment Act, 1983, (amending Act) assented to June 6, 1983 transferred back to the Board, effective January 1, 1982, responsibility for the cost of health services provided to injured workers coming under the Workers' Compensation Act.

The amending Act also amended the Workers' Compensation Act thereby authorizing the Board to enter into an arrangement with the Minister of Hospitals and Medical Care for the payment of these costs together with all or part of administrative costs incurred by the Minister.

Although this arrangement has not yet been finalized, the Board commenced reimbursing the cost of health services. Accordingly, the 1982 invoices totalling \$20,388,000 and 1983 invoices totalling \$27,625,000 have been reflected in Statement 2.

No liability has been recorded in these financial statements for administrative costs, if any, or for any adjustments to amounts already reimbursed by the Board to the Fund, that may be required upon finalization of this arrangement.

#### 13 OCCUPATIONAL HEALTH AND SAFETY

In accordance with Order in Council 195/83 dated March 3, 1983 the Board paid to the Provincial Treasurer an amount of \$5,850,000 in 1983 to partially defray the costs of administering the Occupational Health and Safety Act.

#### 14 ADDITIONAL PAYMENTS OF COMPENSATION

Payments are made out of the General Revenue Fund of the Province of Alberta to cover payments made under Sections 52 and 71 of the Act.

#### 15 ASSESSMENT PENALTIES

In 1982, assessment penalties totalling \$3,136,000 were deducted from administrative, general and accident prevention expenses. In 1983, assessment penalties totalling \$2,609,000 have been included in assessment revenue.

### 16 COMPENSATION ENTITLEMENT

The Workers' Compensation Act caused certain interpretive difficulties for the Board, one of which related to Section 51. This section deals with the calculation of compensation entitlement. In respect of the Board's interpretation of this and related sections, it is possible the resultant administrative policy may not be in strict accordance with the legislation. The Minister responsible for Workers' Health, Safety and Compensation has been notified. The legislation is presently under review.

#### 17 COMPARATIVE FIGURES

The 1982 figures have been restated where necessary to conform to 1983 presentation.

#### 18 APPROVAL OF FINANCIAL STATEMENTS

These financial statements were approved by management on May 2, 1984.

## Crawford E. Laing Ltd.

## **ACTUARIAL OPINION**

As Consulting Actuaries to the Workers' Compensation Board of Alberta, we have reviewed the liabilities of the Accident Fund as at December 31, 1983, but have not ourselves carried out an audit, as the Fund is subject to audit by the Auditor General of Alberta. However, we are satisfied from general tests of the data, that it fairly represents the position at the valuation date, and is adequate and reliable for the purpose of the valuation.

In our opinion, on the basis and assumptions set out in our Report dated April 19, 1984, the liability of the Pension Fund, in respect of pensions and increases in pensions granted up to December 31, 1983, and which are the responsibility of the Board, is \$596,695,000. As the Fund available was \$669,730,000, there is a surplus at the valuation date of \$73,035,000.

The Reserve for Unfinalled Claims at December 31, 1983, of \$270,295,000 is required to meet both the future cost of reported claims, and the cost of possible unreported claims, in respect of accidents that have already occurred, and that will be charged to this Reserve, excluding amounts that will be charged to the various Mutual Reserves. In our opinion, the amount of \$303,582,000, which has been calculated by the Board's Staff Actuary on the basis of methods and assumptions approved by us, is a reasonable estimate of the total liabilities of this Reserve, based on recent experience. Therefore, there is an Unfunded Liability of \$33,287,000 in respect of this Reserve.

The Mutual Reserves at December 31, 1983, totalling \$55,464,000, are required to meet the future costs that will be charged to these Reserves, in respect of accidents that have already occurred. In our opinion, the aggregate amount of \$212,075,000, which has been calculated by the Board's Staff Actuary on the basis of methods and assumptions approved by us, represents a reasonable estimate of the total liabilities of these Reserves, based on the charges made to them in the recent past. Therefore, there is a deficit of \$156,611,000 on a fully funded basis, in the aggregate funds held to meet the liabilities of the Mutual Reserves.

In our opinion, the methods and assumptions used in these valuations are appropriate, and in accordance with sound actuarial principles and practice.

# **INTRODUCTION TO THE 1983 STATISTICAL EXHIBITS**

# **SUMMARY OF CLAIMS ADMINISTERED**

The Summary of Claims Administered indicates that there is a continued reduction in the majority of types of claims administered. Claims under active administration at year-end were significantly lower (1982: 36,373; 1983: 14,573). Accidents of all types were also lower. In addition, re-opened claims were reduced (1982: 7,764; 1983: 6,654). The Tables: Disability Awards Approved in 1983; Number of Fatalities Accepted; and Number of New Accidents Reported in 1983 by Class and Nature of Injury show a reduction in total figures from the previous years. The overall reduction of claims of all types can be attributed to the slow economic recovery, legislative changes, and efforts to prevent accidents.

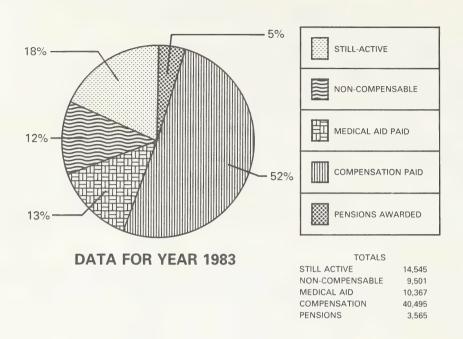

Over the last three years, the number of medical aid claims has also reduced substantially. This reduction was the result of changes in legislation which transferred the responsibility of payment of the majority of medical aid claims to the Alberta Health Care Insurance Plan. The continued reduction of medical aid claims in 1983 may be attributed to the combined effects of the final phasing in of the transfer of responsibility and the continued economic slow down. These effects are combined at present and therefore it is difficult to determine which variable has the greater impact on the figures. The overall decrease in the total claims administered between 1982 and 1983 is roughly 34%. Over the past three years the overall decrease in the total claims administered is 60%.

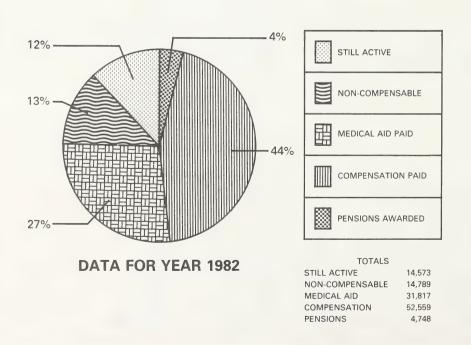

It is important to note that most indicators of Board activity reduced significantly between 1982 and 1983. The total number of compensation days paid, in comparison, diminished by 2% in the same time period. These results suggest that claimants are staying on compensation on average for longer periods of time, despite efforts on the part of employers and Occupational Health and Safety to reduce the severity of injuries.

### THE OVERALL EFFECTS OF THE ECONOMY

The economic slowdown in the province and the country appears to have had a substantial impact on the number of claims received by the Board over the last two years. This does not rule out the effects of various preventative programs, or legislative changes. At present, Research and Statistics is developing an econometric method to analyze and separate the various effects of these variables. The program is designed to aid the Board in producing viable statistical forecasts of workload and manpower requirements.

# **VOLUME AND TYPE OF CLAIMS RECEIVED IN 1982 AND 1983**

# **SUMMARY OF CLAIMS ADMINISTERED**

	1983	1982
Claims under active administration as of January 1st	14,573	36,373
Accidents (all types) reported during the year*	57,246	74,349
Previously closed claims reopened during the year	6,654	7,764
Total Claims Administered	78,473	118,486
Claims in which a pension award or final payment of compensation was made	44,060	57,307
Claims in which medical aid only was payable	10,367	31,817
Claims in which neither compensation nor medical aid was payable**	9,501	14,789
Sub-Total of Claims Administered	63,928	103,913
Claims under active administration as of December 31st	14,545	14,573
Total Claims Administered	78,473	118,486

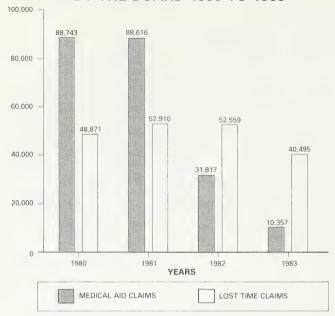

<sup>\*</sup> Accidents of all types include Pensions, Lost Time Claims, No Lost Time Claims, and claims in which a judgement is pending. Non-compensable claims are also included in this category.

# **CROSS-REFERENCED BREAKDOWN FOR 1983**

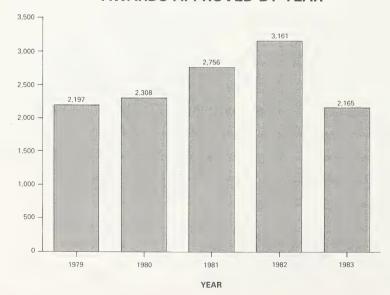

Status at	Claims Under Active Administration	Accidents Reported	Re-opened Claims in	
Year End	as of January 1st	in 1983	1983	Total
Pensions Awarded	1,852	115	1,598	3,565
Compensation Paid	6,817	30,665	3,013	40,495
Medical Aid Only Paid	1,307	8,046	1,014	10,367
Non-Compensable	1,428	7,895	178	9,501
Still Active	3,169	10,525	851	14,545
Totals	14,573	57,246	6,654	78,473

<sup>\*\*</sup> Refers to an accident which was not in the course of employment, covered under the Act, or was not established.

# THE WORKERS' COMPENSATION BOARD HISTORICAL HIGHLIGHTS

In 1983 the Workers' Compensation Board celebrated 65 years of service to the workers of Alberta. Since that first year of operation in 1918, when the total staff consisted of 8 employees, the Board has grown and changed considerably. As the province grew and the demand for Workers' Compensation increased, it became necessary for the Board to continually expand services and add departments so that today over 1,000 employees work for the Alberta Board.

- The Legislature passed the Workmen's Compensation Act 1918. The three Commission Members became the first Members of the Board in May 1918, with Mr. J.T. Stirling serving as Chairman. The new Board was given office space in the Qu'Appelle Building.
  - Mr. James Kinney and Mr. Walter McNeill were appointed Board Members.
- 1919 A branch office was opened in Calgary.
- 1928 Mr. Alexander Ross was appointed Chairman.
- The Board moved its offices to the ground floor of the Administration Building.
- Super-assessments to a maximum of 33 1/3% of assessments paid by an individual employer were introduced.
- 1935 Dr. Victor W. Wright was appointed Chairman.
- Data Processing machines were installed to assist in the compilation of statistical figures.
- Arrangements were made to use the Banff Mineral Springs Hospital as a rehabilitation centre to give physiotherapy to the Board's claimants.
- The Board's offices were moved to the Provincial Building on 100A Street and 101A
   Avenue.
  - A decision was made to introduce a merit / demerit system in relation to the accident experience of employers.
- Merit rebates came into effect for coal mining, lumbering, and other industry classes bearing a heavy accident rate.
- Two part-time Commissioners were appointed to the Board to represent industry and labour.
  - Mr. William Dick and Mr. Alfred Farmilo were appointed Board Members.
- 1943 Mr. Carl Cook was appointed a Board Member.
- 1944 A Medical Officer was hired for the Calgary Office.
  - Under new legislation passed in 1943 employers were required to bear the full cost of medical aid thereby relieving workers of their contribution to cover medical aid.
- 1945 Mr. Carl C. Cook was appointed acting Chairman.
  - Mr. Walter Rose was appointed a Board Member.
- Mr. C. Malcolm MacLeod was appointed Chairman.
  - Mr. Carl Cook was again appointed a Board Member having served from 1943 to 1945, and Mr. Charles Hyndman was also appointed a Board Member.
- 1948 A reserve for rehabilitation was set up.
- The construction of the treatment and administrative wings of the Rehabilitation Clinic in Edmonton was completed. The Vocational Rehabilitation Department was established to coincide with the opening of the Clinic.

- The Board purchased the Provincial Building which had been its office since 1939.
- 1955 Mr. George Batty was appointed a Board Member.
- The addition to the Rehabilitation Clinic was completed.
- The Prosthetic Department was added to the Rehabilitation Clinic.
  - A Regional Office was opened in Lethbridge.
  - Mr. Ivan Casey and Mr. Charles Gilbert were appointed Board Members.
- 1959 A Regional Office was opened in Grande Prairie.
- 1961 A Regional Office was opened in Red Deer.
  - A news bulletin published by the Board was instituted.
- 1965 The Board's office building in Calgary was completed and occupied in July.
  - The Act was amended to provide workers' compensation to be equal to 75% of earnings up to maximum earnings of \$5,600 per annum.
- The Board bought the property at 107 Street and 99 Avenue in Edmonton for its Head Office location.
- The Board's offices were moved to the newly completed Head Office building on 107 Street.
  - Mr. John Halls was appointed a Board Member.
- 1972 Mr. Roy H. Jamha was appointed Chairman.
- 1973 The name was changed to the Workers' Compensation Board.
  - A Regional Office in Medicine Hat was opened.
- A WCB sponsored safety film entitled "Three Minutes To Live" won the bronze award at the International Film and Television Festival in New York.
  - The Grande Prairie Office Building was officially opened.
  - A new Act came into effect and established the concept of 'universal coverage' under which its application is extended to all industries in Alberta except those designated as being exempt.
  - The new Act provided for the appointment of an Advisory Committee with representatives
    of workers, employers, The Legislative Assembly, and the Workers' Compensation Board
    to review compensation legislation and make annual recommendations to the Minister.
  - Maximum assessable earnings were increased to \$10,000.
  - Mr. Peter Kolba was appointed a Board Member.
- The Accident Prevention Department was transferred to the Department of Labour.
- The Honourable Bill Diachuk became the first Minister solely responsible for Workers' Health, Safety and Compensation.
  - Dr. A.E. Hohol was appointed a Board Member.
- Dr. A.E. Hohol became the first Board Member to occupy the newly-created position of Vice-Chairman
  - Mr. Morris Bahry was appointed a Board Member.
  - Workers' Compensation was set at 90% of net wages based on gross earnings up to a maximum of \$40,000.
- Mr. Roy Jamha relinquished the position of Chairman and was appointed a Board Member.
  - Mr. Kenneth C. Pals was appointed Chairman.

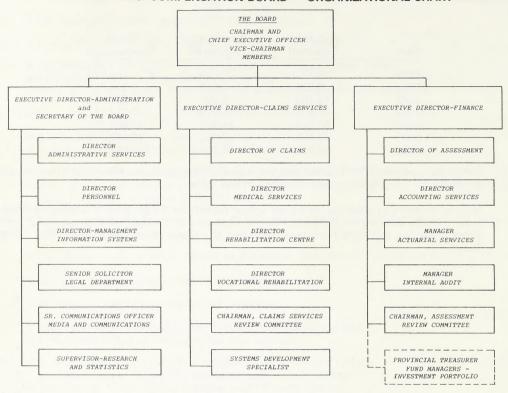

# **HISTORICAL STATISTICS**

Year	Accidents Reported	Employers Registered	Gross Assessments
1923	9,160	2,857	\$ 766,520
1933	8,160	4,645	674,718
1943	19,700	6,292	2,823,324
1953	41,965	14,219	7,634,122
1963	52,044	21,813	12,658,721
1973	79,895	28,886	38,882,175
1983	57,246	53,370	347,676,000

Notes: Accidents reported in 1983 do not include 'No Lost Time' accidents which were incorporated in figures for the previous years reported in this table.

The above data was obtained from prior annual reports for the purpose of displaying relative growth of the Board over the period shown. It should be recognized that reporting procedures regarding this data have been modified at various times during the history of the Board.
